

Antonis Makrigiannakis MD, PhD.

Age: 45 years old
Married, two kids

I completed my PhD thesis and post-doctoral studies on molecular pharmacology of hormones and neuropeptides in Greece in a combine project with NIH. Further training and specialization in infertility and reproductive medicine was undertaken in the Division of Human Reproduction, University of Pennsylvania, Philadelphia, USA. I then moved to Imperial College, London, UK where I worked at the Hammersmith Hospital as a Senior Scientist in the IVF Unit and the Centre of Reproductive Medicine. I now hold the positions of Ass. Professor and Director in Reproductive Medicine in the University of Crete.
General Secretary of Meditteranean Society of Reproductive Medicine.
Executive Member of ESHRE.

**Director of IVF Unit,
University of Crete**

Ass. Professor Ob/Gyn,
